Objective

Motivated Computer Science student specializing in software development, AI integration, and UI/UX design. Seeking an internship placement to apply technical skills in real-world projects, contribute to innovation, and gain industry mentorship. Passionate about problem-solving, technology innovation, and collaborative work.

Education

University of Ghana
Bachelor of Science in Computer Science (Expected 2027)
GPA: 3.6
Relevant Coursework: Data Structures, Algorithms, Database Systems, Software Engineering

Technical Skills

Programming Languages: Python, C++, JavaScript
Frameworks & Platforms: React, React Native
Databases: Supabase, MySQL
AI/ML: LLM APIs, AI integration, voice assistant tech (ElevenLabs)
Development Areas: Web development, mobile app development, UI/UX design, game development, systems development (learning stage)
Tools: Git, Figma, VS Code
Other: API Integration, Agile project collaboration

Projects

Levi – AI-Powered Restaurant Assistant
- Developed an AI assistant streamlining restaurant operations (reminders, purchase logs, analytics).

- Integrated ElevenLabs human-like voice for natural interaction.

UG Navigate – Campus Shortest Path Finder
- Created an app using algorithms to find shortest paths on campus.

Restaurant Management System
- Full-stack solution built with React Native and Supabase featuring modern UI and automated reporting.

Aya – AI Powered Store
- Built an AI system assisting sellers with customer interactions and order facilitation.

Figma Design for Restaurant App
- Designed modern UI in Figma for a restaurant application.
Portfolio: https://www.figma.com/design/MHyWNFmcRCuaquKlXWJH1O/Untitled

Experience

Merrylow Startup (Collaborative Project)
- Contributed to software suite development tailored toward restaurants and student services.
- Gained hands-on experience in development lifecycle, teamwork, and design processes.

Additional Information

- Passionate about continuous learning in game and systems development.
- Strong ability to work independently and collaboratively on innovative projects.
- Deep interest in technology trends, AI, and emerging technologies.
- UI/UX design portfolio available to demonstrate design skills and creativity.

Availability

Eager to join an internship to contribute skills and gain real-world experience working on AI-driven and cutting-edge projects with mentorship from industry professionals.
